EDUCATION

The University of Texas at Dallas — B.S., Computer Science

Aug 2024 – May 2028

Richardson, TX

- Relevant coursework: Data Structures, Object-Oriented Programming, Algorithms, Discrete Math.

TECHNICAL SKILLS

Languages: Java, C/C++, Python, JavaScript, TypeScript, HTML/CSS, SQL

Frameworks & Tools: React, Next.js, Tailwind CSS, Flask, Node/NestJS, Git/GitHub, Figma, MongoDB, PostgreSQL

AI / Data: OpenAI API, Google Vertex AI (Gemini), Elasticsearch, Jupyter; basic data analysis in Python and Sheets

EXPERIENCE

Association for Computing Machinery (ACM UTD) — Marketing Co-Director

Jan 2026 – Present

UT Dallas student org · 1,000+ members

Richardson, TX

- Lead a team of marketing and design officers running digital campaigns for ACM's technical programs, hackathons, and divisional initiatives; own content strategy end to end.
- Drove February 2026 campaigns to 314K+ Instagram views and 15.7K accounts reached — the org's strongest month on record — by tightening posting cadence and aligning creative to each division's audience.
- Previously Hybrid Design & Marketing Officer (Aug–Dec 2025): built high-fidelity promotional graphics in Figma, produced event photography and short-form video for multi-week campaigns across Instagram and LinkedIn.

Kappa Theta Pi (Technology Fraternity) — VP of Marketing

Jan 2026 – Present

UT Dallas chapter

Richardson, TX

- Own brand strategy and all marketing for recruitment, professional events, and internal programming; manage the social media and design teams from concept through deployment.
- Build multi-week Rush campaigns and coordinate with the executive board to tie marketing output to chapter growth goals (applicant volume, event turnout); previously Director of Social Media (Jan–Dec 2025).

Beats by Dre — Data Analytics Extern

Dec 2024 – Mar 2025

Remote externship program

- Analyzed marketing datasets in Google Sheets to surface targeting and content insights for campaign teams; built lightweight LLM-assisted reporting workflows to cut turnaround time on recurring requests.

HSBuilds — Lead Developer

Aug 2023 – Aug 2024

Student-run nonprofit web dev group

Frisco, TX

- Led a team of developers and designers across 10+ nonprofit web projects on GitHub; shipped responsive sites in HTML/CSS/JS while running client communication, requirements gathering, and delivery scheduling.

PROJECTS

Risk Radar — Front-End Lead

Apr 2026

Winner, State Farm Challenge @ WEHack 2026 · React, Flask, Python, MongoDB, OpenAI

4-person team

- Built a personalized home risk assessment platform that turns inspection reports, claims history, and address data into an explainable risk score with prioritized recommendations.
- Owned the React front-end including the interactive floor-plan visualization — the project's core differentiator — mapping risk categories (fire, water, weather) to room-level spatial context.
- Worked across the stack on the Flask scoring pipeline that synthesized unstructured documents, quiz inputs, and external FEMA/NOAA risk data into a unified profile.

Scribbly AI — Front-End Developer

Oct 2025

Next.js, React, TypeScript, Tailwind, Vertex AI, Elasticsearch · scribbly-ai.vercel.app

4-person team

- Built an AI-powered note search platform for students; semantic search over scattered notes via Google Vertex AI (Gemini) embeddings and Elasticsearch.
- Developed the Next.js 15 / React 19 front-end in TypeScript with Tailwind, integrated NextAuth for secure sessions, and shipped to production on Vercel.

Analytico — Front-End Developer

Jan 2025 – Present

React, Tailwind, Figma · Web app, in development

Small team

- Building a web platform that automates social media analytics for content managers; translated Figma mockups into a responsive React + Tailwind UI with dashboards, report views, and recommendation flows.
